FACIALS & ADVANCE SKIN CLINIC

A facial is a great way to maintain a healthy youthful complexion and leave you feeling grate, rejuvenated, confident and on top of the world! Prevention is better than cure when it comes to skin concern or ageing, but if it's cure that you need we will find the right choice for you. We offer a wide variety of facial treatments suitable for all skin types, age, gender, concern or condition. Wrinkles, Acne, White spots (Milia), Pigmentation, Scarring, Dark circles, Saggy skin, Rosacea, Lesions or else we will find a way to help you. The treatments we offer are based either on specially designed for you with advanced technology such as Electrical, Micro-current, and Phototherapy, Microdermabrasion, Radiofrequency, Laser or combination of both. Our wide selection of treatments giving you the option to either treat a specific need or concern or surrender to the world of ultimate relaxation. We prescribe and help to choose suitable treatments for men, women and teenagers.

Mini-Facial Purity Ritual

The perfect express facial if you're on the go, for an instant infusion of marine active ingredients, tailored to your skin type. After a relaxing welcome massage and cleansing ritual, a hydrating mask is applied. While it acts on the skin a soothing massage is carried out. When the mask is removed moisturiser best suited to your skin is applied. After this pick-me-up, you will feel refreshed and relaxed and your skin will be glowing.

30min £25

Prescription Facial

Especially prescribed facial with deep cleanse; Removal of Whiteheads; Milia; Blackheads

The skin is bathed with a delicate soothing mist of pure oxygen and micronized vitamins; Pulsed oxygen pressure is used to push the active ingredients of specially formulated serums deep into the skin enabling them to act more effectively and leave the complexion revitalised and velvety smooth.

*Single 60min £65 **Course (6) £360

Hialurox Advance Repair

Hialurox is revolutionary method that combat the signs of aging as a cosmetic alternative to filler injection. As we age, our skin gradually loses elasticity and wrinkles start to appear. Hialurox restores the volume and elasticity of the skin without need for filler injections. Restores Matrix & Youth of the skin Cells helping developed wrinkles. Treatment is based on Hyaluronic Acid which known as a "youth cell" and it is present naturally in all living organisms. The amount of HA our body produces determines the skin's elasticity, volume, youth and how fast we age. HA at its highest levels in new-born babies. By the age of 40, HA production naturally decreased by 50% and after the age of 60, we have barely 10% left of the original levels we were born with. The most visible results of HA reduction is fine lines and wrinkles, less plump and glowing skin texture, changes in the elasticity and youthful appearance of the skin. HA is also responsible for the production of elastin and collagen so their presence in our skin reduces as HA levels drop. As HA levels are improved then collagen and elastin production is similarly boosted.

*Single 60min £75 ** Course of (6) £420 *** Course of Deluxe (6) £550

RF Facial. Radio Frequency skin tightening

Radiofrequency (RF) energy treatment is technology for non-surgical tightening of the early signs of loose or sagging skin; ideal for those people who either don't want, or don't believe they are old enough to have a surgical procedure. Pure RF energy alone is primarily used to treat skin laxity by facial tightening, and is best suited to patients with mild to moderate sagging of facial tissues, usually those in their mid-30s to 50s, with any skin color. It is commonly used to treat the forehead, under the eyes, cheeks, mid-face, jaw line, and neck. Based on current RF technologies, most people should see at least a mild improvement in their skin tightness, with minimal risks and downtime compared to surgery. Prices for radiofrequency facial tightening treatment depend on the area(s) treated and the device used.

*Single 60min £450 ** Course of (3) £1250 ***

Mesotherapy

It's a medical technique devised in the 1950s. It was first used to treat such conditions as rheumatism, sports injuries, and for the improvement of blood circulation. Mesotherapy has now been used successfully for the treatment of cosmetic conditions, including wrinkles, skin rejuvenation and improvement, hair regrowth, localized fat reduction and as a treatment for cellulite.

Mesotherapy involves either the micro-injection or none-injection machine infusion of a specially prepared mixture placed just millimeters under the skin. Mesotherapy aims to replace minerals, vitamins and amino acids that are found in lower levels in skin as we age. Another newer procedure is to boost levels of hyaluronic acid in the skin. Micro-injections are given every 2 weeks. Min Courses of 3 recommended. None-injectable infusion are given weekly 1-2 per week. Course of 6 recommended. When the desired effects are achieved, you will require a maintenance minimum every 2 months. PRP & PRF can be added at additional cost

*Single 60min £140** Course of (3) £390 ***

Derma Pen

This is a brand new method of micro needling technique and has now been used successfully for the treatment of many cosmetic conditions, including acne scarring, wrinkles, skin rejuvenation and improvement, hair regrowth, skin tightening, cellulite and more. PRP & PRF can be added at additional cost

*Single 60min £260** Course of (3) £750 ***

The TimeNet

The PDO thread lift is a treatment which lifts and tightens sagging skin tissue, using threads made of Polydioxone (PDO) Trigger Cellular renewal, through collagen stimulation, and neovascularisation to improve skin texture, fine lines and elasticity and skin tightening by contracting fat tissue.

*small areas from £50** Contour lift from £100 ***

Pigmentation and Scarring

Age spots or lentigos, sometimes known as 'liver spots' are medically known under the condition of hyperpigmentation.

Scarring can affect a person's confidence and self-esteem, particularly when the scars are on the face. Common facial scars that affect many people include acne and chicken pox scars. Other deeper or larger scars may be as a result of trauma, disease or previous surgeries.

**Contact us for treatment consultation. Prices start from £50

After Care following facial treatments: your skin may be quite sensitive. The following advice will ensure that you continue to benefit from your treatment and keep your skin looking young and healthy.

Registered Physiotherapist & Personal Rehabilitation trainer Fitz McFarlane Contact direct on: 07734158443
Assessment and treatment of varies sports & soft tissue injuries problems by use of manipulations similar to those used by osteopaths/chiropractors; electrotherapy & exercise therapy individually prescribed.

Back, Neck and Shoulder Massage A relaxing back massage will help to ease the build-up of stress, stiffness and tension in the back and shoulders and gives the feeling of well-being 30min £35

Light Legs Massage Essential oils and plant extracts work to immediately eliminate muscular tension or swelling in the lower leg and feet, leaving the legs feeling light and refreshed 30min £35

Full Body Massage Swedish technique is perfect treatment to relieve muscular tightness, tension, stiffness, spasms and restrictions in the muscle tissues and to reduce the physical stress placed on bones and joints. Massage also helps to reduce stress and anxiety by relaxing both mind and body and creating a feeling of well-being 60min £65

Deep Tissue Massage

Deep tissue massage, as its name suggests, concentrates on the deeper layers of muscle tissue to complement other treatments or massage techniques used at The Absolute Beauty. What does deep tissue massage involve: If you ever experience that 'knotted', 'wound up' feeling in your muscles, when your body says you've 'overdone it', deep tissue massage can help release chronic muscle tension. This is achieved through focused therapy and 'normalisation' of muscles, tendons and the fascia (the fibrous connective tissue that supports and protects your muscles. During treatment, you'll experience greater intensity than with some of the more 'relaxing' therapies. This is because deep tissue massage therapy reaches beyond the upper level of superficial fascia to benefit the deep fascia and the very deep sub serous fascia your deep tissue massage therapist will apply specially trained and required techniques. Deep tissue massage can be used on its own or with other therapies. You may also want to consider lifestyle changes to reduce the likelihood of developing the symptoms that prompted the need for treatment. For a longer-term solution, your therapist can also help you address issues such as posture, how you move, how you relax, and how you deal with stress. The frequency of treatment could vary from a weekly session in severe cases, to occasional therapy. As well as general treatment, you may also wish to consider specialised therapy such as a focused deep tissue Back Massage or full body massage with Chinese Cupping Technique Therapy. 60min £70

Cupping Massage Therapy Technique

The modern world of healing has embraced another wonderful ancient technique that has powerful results. Cupping Massage Therapy is a modified version of "cupping therapy," which has been used extensively in Chinese medicine for several thousand years. **The suction created by cupping pulls stagnant fluids to the surface, removes toxic pathogens and promotes fresh oxygenated, nutrient rich blood & lymph.** By creating suction and negative pressure, massage cupping is used to drain excess fluids and toxins; stimulate the peripheral nervous system; bring blood flow to stagnant muscles and skin; and loosen adhesions, connective tissue and stubborn knots in soft tissue.

- Deep tissue work and release without discomfort; Pulls blood supply to the Skin;
- Breaks Up and Expels Congestion, Stretches Muscle and Connective Tissues; Nervous System Sedation
- Dispers wind, damp and cold to treat muscle and joint pain, stiffness, and arthritis
- Strengthens the immune system by promoting the flow of lymphatic fluid and Loosens Adhesions
- Treats excess heat conditions, fever, stress, depression and anxiety; Relieves Inflammation
- Cleans the blood and lymph, helps to balance PH levels; Moves stagnation and drains fluids

SLIMMING & ADVANCE BODY

I-Lipo & Cavitation

It's a new innovative concept in non-invasive fat loss and body contour aesthetics, known as 'lunchtime lipo'. The treatment emits near infra-red light energy, the fat cell membranes are disrupted releasing intra-cellular fat. This causes the cell to lose its round shape by changing the permeability of the cell membrane. Triglycerides are broken down into smaller molecules of fatty acids and glycerol and spill out from the broken cell membranes. They are released into the interstitial space, where they are slowly transported through the body's natural metabolic functions, with no adverse physiological effects and are used by the body as an energy source. Post treatment exercise can accelerate the breakdown and removal of fat from the area. Independent clinical studies have shown I-Lipo to be, in some cases, comparable to fat loss results achieved by liposuction. Results can be seen immediately after each treatment as the fat cell contents are released. After initial course maintenance treatments may extend and improve results thereafter.

Cavitation

Its Non-Invasive treatment that complements other programmes with initial and only action is to target, melt and dissolve stubborn fat pockets in localise problem areas allowing the body to metabolise it in its natural way. Lipo Cavitation is a very effective treatment for specific problem areas. This treatment includes session of Pressure Therapy for the best outcome. *Single 60min £75 **Course of (3) £210

Pressure Therapy Lymph Drainage

The Lymphatic system is our front line of defence in fighting bodily infections, detoxifying the body and transporting metabolic wastes, excess water, bacteria and toxins out of the body. The Lymph glands (at neck, armpits, groin, etc.) are connected by a broad network of vessels which transplant the fluid. Muscular movement is required to move it, as there is no "Heart" to pump it. Lymphatic Drainage is a gentle treatment that relaxes the nervous system and aids the body's immune system. It is highly recommended for those on slimming or fat eliminating programmes, prone to on-going tiredness, excess fluids, low immunity, and recovering from sore throats, colds, infections, swollen node and also for the physically inactive. *Single 45 min £45 **Course of (3) £110

RF body skin tightening

Radiofrequency (RF) energy treatment is technology for non-surgical tightening of the early signs of loose or sagging skin around the body. Suitable to treat arms, stomach, thighs and other. Pure RF energy alone is primarily used to treat skin laxity by skin tightening, and is best suited to patients with mild to moderate sagging of skin tissues, usually those in their mid-30s to 50s, with any skin color. Based on current RF technologies, most people should see at least a mild improvement in their skin tightness, with minimal risks and downtime compared to surgery. *Single 90min £450 **Course of (3) £1150

High-Tech Slim Body Cocktail

Back Treatment 40min £55

Hopi Ear Candling

This is a gentle, natural and very relaxing treatment. Centuries old, candling continues to be used as a soothing and relaxing treatment for the ears. A cylinder is gently placed in the ear and lit on the opposite end to create a slow vacuum with no discomfort. Hopi ear or thermo-auricular therapy is very relaxing treatment and ideal for old ear wax and noxious toxins are removed, helping to relieve pressure, wax build-up and inner blockage. It's an excellent for treatment of nose & throat congestion, sinusitis, headaches, tinnitus & allergies. It helps to calm and relieving symptoms of stress, anxiety and promoting general well-being. This treatment is suitable for children.

30min £20

Aromatherapy Massage

Full body relaxation massage with aromatherapy oils includes your back, the front and back of your legs (including thighs), your feet, your arms and your chest. During an hour of indulgence, this treatment will totally relax you and help drive out tensions. It's a perfect antidote to the stresses of modern life. The oils used in aromatherapy massage come from proven plant essences and are pre-blended by ourselves from a range of aromatherapy massage oils. Depending on your requirements, we'll recommend a particular combination of oils to suit your needs. Massage alone is wonderfully relaxing. Combine it with the benefits of essential oils and you'll unlock benefits that transcend the combined power of the two. That's aromatherapy massage; if you've never tried it you're in for a treat.

60min £50

Indian Head Massage

The head, neck and shoulders are the most important energy centres within your body. When you are stressed tension seem to accumulate around the neck & shoulders and could cause headache. Indian Head Massage involves working with a firm and gentle rhythm to help unknot blockages and so relieve this uncomfortable tension. The effect however, is not only physical; it works on your emotions too, calming the spirit and aiding relaxation. Treatment improves blood circulation to the head and neck area before speeding up the interchange of oxygen, nutrients and waste. It improves lymphatic drainage aiding elimination of waste and toxins; Relieves tension in muscle tissue, helps to improve mobility in the neck area, relieves mental and physical strain, helps to clear the mind and aids insomnia. Treatment improves alertness and concentration levels and work as an antidote to stress, anxiety and mental tension.

PERMANENT MAKE UP

With 20 years' experience

The future...

Permanent cosmetics are the future of the beauty industry. They can be used to define eyes, brows and lips to give you soft, natural finish that will imitate perfectly applied make-up. This effect is achieved by using revolutionary hypo-allergenic pigments to create a shadow of colour under the dermal layer of the skin. The result can be as subtle or dramatic as you wish to create a look that enhances your natural beauty.

Is there a chance of infection? No. Health and safety is our priority. For strictest hygiene and complete safety only new, sterile and disposable needle unit is used to perform the treatment; where each disposable needle unit is opened in front of each client and disposed straight away after the treatment. The development of PMC Micro-colours puts special emphasis on skin tolerance as well as the brilliance and intensity of colour. The well-known Swiss Institute for safety within cosmetics RCC Ltd., have confirmed the outstanding properties of the new permanent make-up by Wild Cosmetics.

Eyes and brows dramatically improved effects can be achieved emphasising shape and definition of eyes and brows. PMC Make small eyes look bigger, lashes look thicker and emphasise eye colour - with our advanced techniques. Choose from a subtle, natural look, mimicking thousands of tiny lashes or a more defined eyeliner look. Brows are frame and enhance your facial features, contour your face, achieve visual lift and younger appearance and never use an eyebrow pencil again. Our techniques are the perfect way to create a soft natural look or 3D textured hair strokes on sparse, short, pale, brows.

Lips can be made fuller, finer lines and wrinkles will lift to create natural contour. Lip colour will be enhanced and shape corrected - all using our revolutionary cosmetic techniques. Our unique "lip blush" system using soft shades gives a haze of colour across the lips, or a dramatic colour can be applied to create a more striking look. Lips that have lost definition through the aging process can be corrected and shape redefined with naturally beautiful effects.

Today... And now that you have discovered the benefits of permanent cosmetics, the next step is to arrange a consultation that is free. This will give you the opportunity to speak to Permanent cosmetics specialist who can answer your questions, discuss the options available to you and talk you through the procedure and discuss how you can use permanent cosmetics to enhance your features in the most natural, beautiful and long lasting way possible.
